DISC HILLERS

SPIDER GANGS

3-Pt Keulavator™ Frame, Cat. 1 #51946* **\$279.99**

- 1 1/2" diameter x 15 1/2" long toolbars
- Accepts IHC-style wedge clamp & bolt
- Clamp assemblies can easily be adjusted for a min row width of 31" to a max row width 52"
- A 3-pt tractor attachment that can be customized to shape, ridge, bed & cultivate your garden.
- Accessories sold separately

*Additional \$12.00 out-of-box fee will be added to shipping charge

SIMPLE IN DESIGN, COMPLEX IN CAPABILITIES: THAT'S WHAT THE KEULAVATOR DELIVERS.

Agri Supply is proud to be a developer and sole retailer for this specialty product. It's perfect for: **Bedding, cultivating, ridging, & shaping your rows... in your garden or on your farm.**

Sweep Attachments

This heat treated row sweep will help you control weeds in your center rows. It has a 16 inch width and is 1/4" thick. This tillage sweep has a 54° stem angle and has been heat treated for added strength and durability.

Spider Gang Attachments

Till in weeds and protect your crops from being choked out. Loosen the soil, turn under weeds, and promote water infiltration. Each assembly includes four 14 1/2" spiders and 3 scrapers to cut weeds and break up dirt clods.

Disc Hiller Attachments

An easy & economical way for hilling in prepared soil. They can be used in place of plows to make up rows, and work even better, because plows can get stuck & kick dirt up covering your plants where hillers will roll over objects & not get hung up.

Agmate™ Finish Mowers

Perfect for landscapers, homeowners and golf course groomers alike. Keep a manicured lawn by using this 3-point finish mower with a rear discharge. This position works to eliminate grass buildup in uncut areas and reduces blade wear. The 3-point hitch is made to fit a category 1 hitch tractor. The finishing mower deck can be adjusted to create different cutting heights.

- Cutting Height: 1.36" - 4.53"
